

Adding a Point to OpenStreetMap

1. Before you can begin adding data in OpenStreetMap you must register as an editor. In the upper-right corner of <http://www.openstreetmap.org> and click the small blue link that says “Sign up”.

2. Choose a username and enter an email address. This user name will allow your edits to be saved and other editors to contact you.

Create a User Account

Fill in the form and we will send you a quick email to activate your account.

Email Address:

Confirm Email Address:
Not displayed publicly (see [privacy policy](#))

Display Name:
Your publicly displayed username. You can change this later in the preferences.

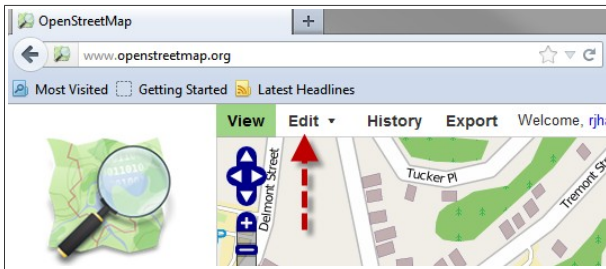

Password:

Confirm Password:
Alternatively, use OpenID to login

3. Please read and accept the terms and conditions. The license for OpenStreetMap (ODBL) allows your contributions to the map to be used by others.

4. Once you receive the confirmation email, try to login to the OpenStreetMap site.

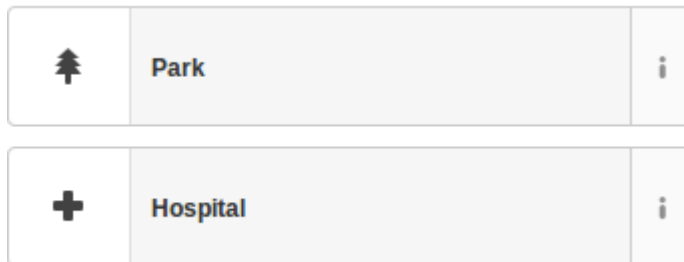

5. Once logged in zoom into your neighborhood.

6. Click the edit tab and editor will start.

7. Once editor starts you will be able to add a point to the map. By default you will see an Aerial Image of your area. Locate something you want to add. Possibly that will be your house or a local business.

8. Select Point and then click on the map where you wish to add the point!

9. Once you add a point click on the menus to the left and fill out the description for your point!

10. Click the save button and write a small description of your edit.

Congratulations!

You have added a point to OpenStreetMap
